## MAJOR INTERIOR RENOVATIONS IN SALISBURY, MD

Fisher Architecture has been hired to complete major interior renovations to the University Village Apartments in Salisbury, MD. The intent is to provide new renovation plans to convert the existing units into new desirable, marketable plans. Included will be clubhouse updates and a design refresh through out the large complex. The units are in need of an updated look to keep up with local markets for the students. Fisher Architecture is currently working with the City's Department of Infrastructure and Development to find beneficial ways to enhance the site amenities. Unit modifications will be completed as well. Current units that contain four bedrooms will be split into one and two bedroom matrix of apartments. The exteriors are expected to stay the same but the whole complex will feel 'new' in 2019!

University Village was originally built in 2005 and includes 149 units, in 3 story buildings.

# STAFF SPOTLIGHT

TIMOTHY BAIN

Fisher Architecture LLC, a locally owned, experienced architectural firm providing functional design and construction solutions to clients, announced the addition of Timothy Bain as an Architectural Designer to its design firm.

*"Tim brings with him proficiency in Revit and a motivation to learn throughout the various levels of architecture," says Keith Fisher. "He brings a lot to our team and we're excited to watch him continue to grow in his profession."*

With experience in REVIT, project management and graphic design, Timothy will aid our architectural project teams for Fisher Architecture. He will be responsible for managing projects from concept to completion, renderings, client presentations, animations and construction documents. He received his Bachelor of Science in Architecture and his Master's in Architecture with from Norwich University with a minor in art.

Timothy joined Fisher because he was drawn to the office culture promoting team unity and professional development. He also wanted to broaden his experience with the multi-faceted designs from all sectors.

In his free time, he enjoys going to Nascar races or the local dirt track, playing percussion in the local community band, and visiting local breweries. Timothy resides in Salisbury with his girlfriend.

## PARK PLACE JEWELERS-COMPLETED

Park Place Jewelers is open for business in the new Park Place Plaza located in West Ocean City, MD! Fisher Architecture provided full services including Architectural and Interior Design for this tenant fit out, as well as the entire building shell of the twenty-one thousand square foot Park Place Plaza. A feature to check out in the new jewelry store (other than gorgeous jewelry) is the Infinity symbol cloud amongst the high vaulted ceilings. Fisher Architecture also coordinated the Pandora, Alex and Ani and casework jewelry counters between the owner and other consultants. Lighting was an extremely important factor to keep in mind! Also included in the design was a mezzanine created to allow for upstairs offices.

### FISHER NEWS
